ASP.NET XPATH HTML5 Bootstrap CSS3 AJAX JS XML XSL

CHALLENGE

Covetus was approached by nations one of the oldest property and casualty insurance company for its needs for specialized XML contractors. The fortune 500 company uses a very complex XML Architecture.

INDUSTRY	LOCATION	CLIENT
Insurance IT staffing	*USA*	**NAPA**

SOLUTION :

Covetus supplied them multiple contractors who can work on their complex XML schemas and create very robust XML system. The project involved creation and maintenance of XML files for various insurance policies, and the creation of various XSLT adapters for processing canonical XML message.

RESULT :

Because Covetus understands technology and has the ability to provide resources with virtually and specific skill set, our clients come to us when they have contract or permanent IT staffing needs.
